Exercise in Illustration

Using illustration or example is a good way to clarify and develop your ideas. Below are three ideas for illustration on the topic of online shopping. Brainstorm and write a paragraph for each of the three prompts.

1. Provide a list of websites that you or people you know have used to shop online.

2. Discuss possible advantages or disadvantages of shopping online.

3. Provide an anecdote that illustrates a positive or negative experience you or someone you know has had with shopping online.
