

# We Agree – Natural Gas TV

**Theresa, Web Designer**

Look, every day we're using more and more energy.

**Greg, Chevron Employee**

The world needs more energy.

**Title**

We need more than oil.

**Theresa**

Where's it going to come from?

**Greg**

That's why, right here, in Australia, Chevron's building one of the biggest natural gas projects in the world—enough power for a city the size of Singapore for 50 years.

**Theresa**

What's it going to do to the planet?

**Greg**

Natural gas is the cleanest conventional fuel there is.

**Theresa**

We've got to be smart about this.

**Greg**

It's a smart way to go.

**Title**

We Agree
